

CERTIFICATION FOR

We appreciate working with **EUMETRYS** as a supplier of the service support for our INSPECTROLOGY IVS metrology system.

The tool is key to us for the Canon Stepper qualification and Daily Lithography tracking.

This metrology system helped ABB in Lenzburg in improving the yield. The **EUMETRYS** support team, particularly responsive, allows the IVS tool to reach over 98% uptime for an 1800H recorded MTBF. Simply Efficient!
